

# Dog Park Vision

The Buckhead Collection

## Dog Park Vision + Guiding Principles

Greater Buckhead is home to over 30,000 dogs. The Buckhead Collection proposes to address the recreational and social demands of dogs and their owners through a variety of facilities:

- **Dog Waste Disposals | Clean-Up Facilities** should be located in all Parks + Public Spaces
- **Small Dog Parks | Runs** should be located within 1/2 mile of every urban resident, either within neighborhood | community parks and civic spaces or at other locations
- **Larger, Destination Dog Parks** should be provided within 2 miles of every suburban resident, either within larger community parks or at other locations

## Urban Dog Park | Run

- Occur in densely populated areas
- Can occupy underutilized spaces (i.e. alleys, park edges, large medians within urban parks or as sole-use sites)
- Provides basic amenities including water fountain, waste stations, seating areas, fencing, shade | shelter, durable surfaces (typically not organic turf)
- Fulfills basic needs including canine to canine interaction, socialization, canine exercise, waste disposal

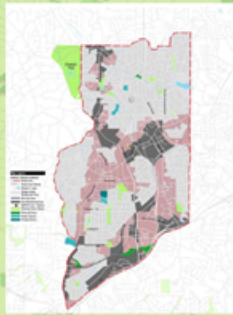

## Destination Dog Park

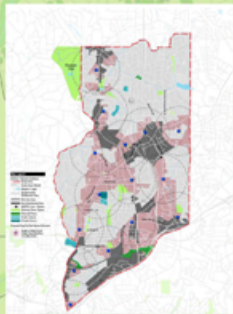

- Occur in suburban or rural areas
- Can occur within larger parks
- Provides full range of amenities including water fountain, waste stations, seating areas, segregated recreation areas, shade structures, water | beach access, agility courses | structures, trails | paths, larger exercise areas, restroom facilities, waste recycling, dedicated parking
- Provides a complete recreational experience including canine | canine interaction and socialization, canine/human recreation and interaction, larger size allows for increased flexibility and a greater variety of park programming, potential community event site, potential revenue generation

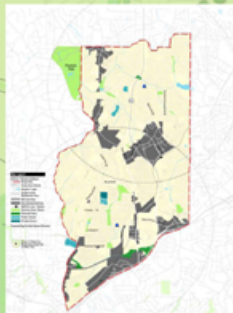

## Analysis

Urban vs. Suburban Areas

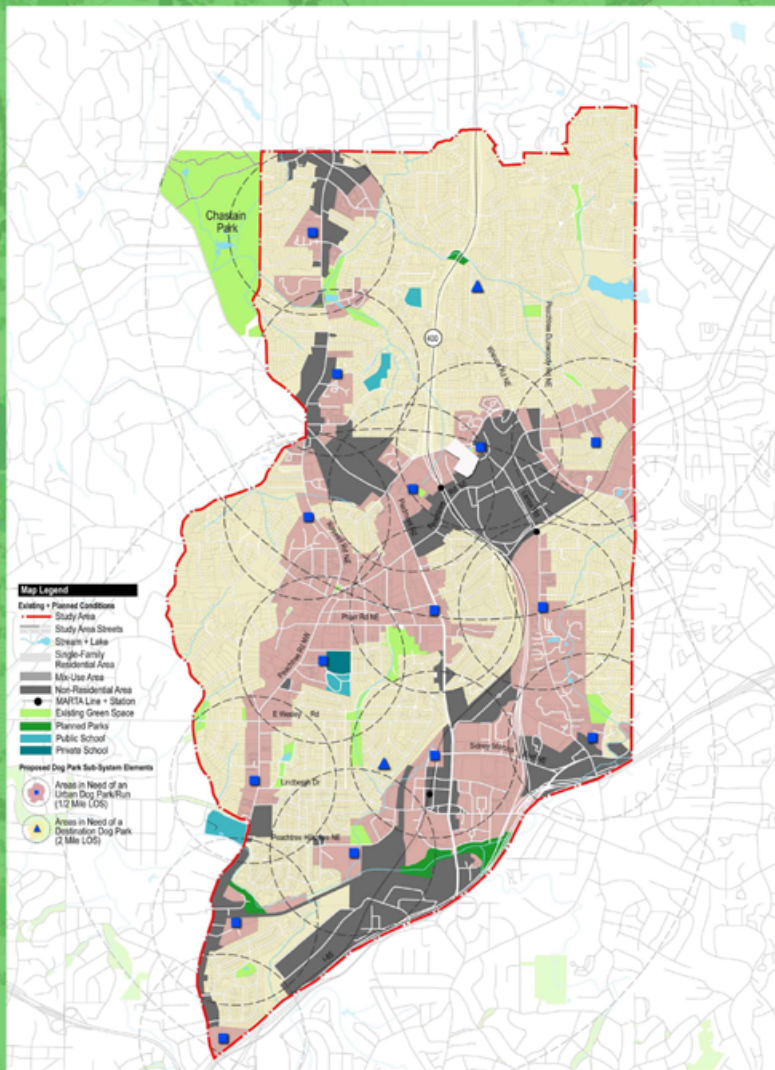

Small Dog Parks | Runs within 1/2 mile of Urban Residents

Larger Destination Dog Parks within 2 miles of Suburban Residents
