

Buckhead CID Plaza Vision

The Buckhead Collection

Plaza Vision + Guiding Principles

The Buckhead Collection proposes to provide residents, employees, and visitors of commercial and retail establishments within the Buckhead CID boundary access to a Plaza within 800 feet of their work or shopping location. These spaces will provide users with opportunities to rest, reset, relax, have lunch, meet, and enjoy the outdoors.

Plazas should be located for southern exposure and be located on the exterior edges of properties adjacent to the right-of-way. They should be a minimum of 900 - 2,500 sq. ft. and include, deciduous shade trees, movable tables and chairs, fountains, public art, etc.

Example of a Plaza
