Does Buckhead Experience a Proportionate Share of Crime?

If a proportionate share is determined by the percentage of the population that is in the zone, Buckhead (Zone 2) “should” expect to see about 25% of crime overall.

It is important to note that these population numbers are based on residents and Buckhead’s daytime population more than doubles the residential base every day due to its position as an employment center and shopping destination which would actually increase Buckhead’s “fair share”.

Does Buckhead Experience a Proportionate Share of Crime?

Zone 2 has less than its “fair share” of crime relative to population per zone in all categories

- Our “fair share” is 26% (calculated by population in zones)
- Zone share is decreasing in several areas

Firearms Seized - Citywide

A total of **360** guns have been reported stolen in Buckhead this year which is **20%** of the City's overall total of **1842**

Firearms taken from vehicles by Atlanta police beat, 2021
