

Wieuca Road Baptist (DBA Church at Wieuca) Redevelopment Church SAP Project Summary and Variations List

I. <u>Project Summary</u>

This application proposes the redevelopment of a portion of the church property to demolish existing buildings and construct a new building over 1 level of parking. The parcel in question is along Wieuca Road and will be subdivided from the portions of the overall master development to the north and south. The UDP for the overall project infrastructure is under a separate SAP permit application and adjacent developments will follow under separate SAP applications as well. The parcel is currently owned by Wieuca Road Baptist Church. The property has recently been rezoned to SPI-12, SA1.

II. <u>Variations Requested:</u>

- 1. 16-18L.010: Reduction in Supplemental Zone to allow for increased Amenity Zone along Wieuca
 - a. The variation is requested to allow for the increase in the amenity zone and a reduction in the supplemental zone along Wieuca Road as follows:
 - 1. Amenity Zone increase from the required 5-ft to 8-ft
 - 2. Supplemental zone reduce from the required 10-ft to 7-ft

FRONT ELEVATION - WIEUCA ROAD

- page 3).
- Development of Regional Impact (DRI) Study: Mixed-use developments with at least 700,000 s.f. or residential with at least 700 residential units may require a DRI approval by GRTA and ARC. For full thresholds and rules contact GRTA and/or ARC.
 - Initial submission: DRI Form 1 with the SAP application. Zoning and Development staff will then submit information to GRTA and ARC.
- Watershed Management (DWM) Requirements (Section 74-504(a)): Consultation meeting with DWM is REQUIRED for any site disturbance to determine applicable storm water work. Call 404-330-6249 or visit: www.atlantawatershed.org/greeninfrastructure
- Unified Development Plans: Applicable to all zoning districts except R-1 to R-5, RLC, PD, & historic bldgs/districts (Section 16-28 030)

omitted bevelopment Flans. Applicable to all 2011ing districts of	Nocht Te Teo, Teo, Teo, Teo, a mistorio biago/alotrioto (decitor 10-20.000)

SPECIAL ADMINISTRATIVE PERMIT (SAP) APPLICATION Submittal Checklist

The following checklist is designed to assist those in preparing required materials for SPI, Beltline Overlay, NC, LW, MRC, and MR districts. <u>Items omitted will delay applicant's review process</u>. The following items are required as part of a complete application for a Special Administrative Permit. **NPU Notification and DRC review, as applicable, are required as a part of a completed SAP application.** <u>Please note</u>: * FINAL APPROVED SAP PLANS ARE REQUIRED WITH THE PERMIT APPLICATION SUBMITTAL TO THE OFFICE OF BUILDINGS.

1.	SAP Application Form and Property Landowner Authorization Form: completed with notarized signatures.
2.	Notice to Applicant Form: with signature and date.
3.	Project Summary: Provide cover letter clearly describing all new construction, alterations, repairs or other changes to the exterior appearance of existing structures or site. Any administrative variations ARE REQUIRED to be accompanied by a written justification for each variation requested.
4.	Property Survey: One (1) copy of survey (for new single-family and duplex construction, show existing footprints
	of principal structures on adjoining lots fronting the same street).
5.	Site Plan (drawn to scale, released and sealed for construction) of proposed improvements showing items listed below*. Initial Submission: One (1) copy for initial staff review. Final Submission (after staff review): CbY (% copm a) Date, north arrow, and graphic scale. b) Adjacent streets, with street names, property lines and dimensions, and easements.
	c) Existing conditions to remain: identify all overhead utility poles, transformers, above ground storm water detention areas and inlets.
	 d) Proposed new installations: Identify the number, type and location of new street lights, transformers, AC units and other similar mechanical/accessory equipment at or above grade. Identify such items in the public right-of-way which final approval by Department of Public Works or GDOT is required. e) Specify location and widths for all Sidewalks (street furniture and clear zones) and Supplemental Zones. f) Ground floor layout plan with building and tenant entrances also shown
	g) Street-front ground floor façade fenestration – vertical/horizontal window dimensions and % of façade length h) Outdoor dining – seating plan, dimensions, and % of business establishment floor area
	i) Height of structures (including fences/walls)j) Parking, driveway and curb cut layout and dimensions (auto, truck loading, & bicycle/moped)
	 k) Location of parking deck light fixtures. Also indicate amount of foot-candles, and type of light fixture l) Landscape plan: Planting locations including street trees (with tree species and calipers indicated), parking lot and other on-site landscaped areas (with the dimensions and percentage of lot calculated). m) Provide Developmental Control Specification Form (pages 6-8) information on the site plan.
	 Zoning Classification, Net Lot Area & Gross Land Area, Floor Area Ratio (FAR), square footage of structures & individual uses, etc.
6.	Rooftop plan when counted towards open space requirements.
7.	Elevations of building facades. CbY (1) copy for initial staff review. Final Submission: CbY (%) copm
8.	Section drawing(s) as needed showing required sidewalks, supplemental zones (with retaining walls), and building façade & finished floor-level dimensioned within 5 feet above the adjacent sidewalk-level.
9.	DRI conditions of approval, rezoning legislation, variance or special exception letters printed on site plan.
10.	Transportation Management Plan/Association Membership (where applicable) required based on the zoning district. See specific zoning regulations for confirmation.
11.	Beltline Overly District, NC-2, NC-6, NC-10, NC-11, NC-12, and NC-14 properties:
	• Mail a copy of the submitted SAP application & drawings stamped received by the Office of Zoning and
	 <u>Development</u> to the NPU contact person. Submit a copy of <u>U.S. Postal Service Certificate of Mailing</u> and <u>Notarized Affidavit of NPU Notification</u> (page 5) as soon as possible to complete the application submission and begin the SAP review period.
12.	Photographs (buildings/site): Show existing conditions for alterations to existing building facades and/or site modifications.
13.	Shared Off-site Parking: Requests for approval of off-site parking submit materials on Shared Off-site Parking checklist.
1/	Other information necessary for the SAP as requested by staff

SPECIAL ADMINISTRATIVE PERMIT (SAP) APPLICATION

DEVELOPMENT/DESIGN REVIEW COMMITTEES (DRC)

CHECK FOR APPLICABILITY Beltline Overlay and Special Public Interest (SPI) Districts

File #

Development / Design Review Committees (DRC) have been established as an advisory group for the purpose of providing to the Director of the Office of Zoning and Development formal recommendations/comments on Special Administrative Permit (SAP) applications within the Beltline Overlay and particular SPI zoning districts. Applicants are required to make a presentation of their project to the applicable DRC committee. DRC review is required as part of a completed SAP application.

Each DRC shall consist of committee members representing the corresponding district stakeholders including: property owner(s), business owner(s) or resident(s), and applicable neighborhood organization(s), among others.

The DRC convenes monthly (or as needed) to comment on SAP applications within a particular district. Each DRC shall provide recommendations to the Office of Zoning and Development Staff and the applicant within 7 business days, unless the applicant is requested to return to the applicable DRC and/or present to respective neighborhood organization(s), or

Lindbergh SPI-15: Meetings coordinated by City of Atlanta Zoning and Development Staff: (404) 330-6145.

Application Submittal and Review Process

- 1) Pre-application meeting with Office of Zoning and Development staff. To arrange pre-application meeting, contact Christian Olteanu at 404-330-6961 or colteanu@atlantaga.gov.
- 2) Notify the applicable DRC contact (as listed above) to arrange placement on the next scheduled DRC meeting agenda.

DRC Submittal Requirements

- 1) Written summary of proposed scope of work (include applicable project information such as total square footage, # and breakout of residential units, and square footage of each commercial use, building height, parking and loading provided, etc.).
- 2) Identification of all administrative variations requested and written justification for each requested.
- 3) PDF Digital drawings (to-scale) of site plans and building elevations as applicable to the scope of work.
- 4) Photographs of the existing property.
- 5) Contact DRC representative to e-mail project information (prior to meeting) and confirm DRC meeting date and time.
- 6) At the DRC meeting:
 - a. Provide hardcopies of cover letter and drawings (in 11"x17" size) for distribution to each committee member.
 - b. Provide drawings on boards for project presentation to committee members or digital PowerPoint presentation (coordinate with DRC representative on the latter).

Committee Review Responsibilities

- Make recommendations on project concerning zoning requirements and administrative variations requested.
- Make other design recommendations for consideration concerning an application. Note: these other recommendations are not code requirements.

Residential Open Space Requirements (refer to Chapter 28 for clarification)

Definitions and Methods of Calculation

• <u>LUI</u> = Land Use Intensity Ratios Table (per Section 16-08 R-G District Regulations)

TOSR: Total Open Space Requirements for Residential Only Projects

- <u>TOSR</u> are calculated only for residential developments. TOSR includes the total horizontal area of uncovered open space plus ½ of the total horizontal area of covered open space subject to the limitations in Section 16-28.010 (4). Covered total open space is the open space closed to the sky but having two clear unobstructed open or partially open (50% or more) sides.
 - TOSR required = (LUI table) X (GLA).
 - o TOSR provided = (GLA) (area of building footprint) + (combined area of balconies and rooftop terraces).
- <u>UOSR</u> requirements are calculated using the residential FAR (of the <u>corresponding net lot or GLA lot sized used</u> to calculate FAR) for both residential and mixed-use developments. It does not include areas for vehicles. However, newly created on-street parking (outside of existing travel lanes) and new streets may be counted towards the UOSR calculations as specified in the district regulations.
 - UOSR required = (LUI table) X (the corresponding lot size used to calculate FAR).
 - If GLA is used for USOR, than the amount provided shall be = (NLA) (area of building footprint + surface area of parking lots, and driveways) + (balconies, rooftop terraces, and landscaped areas on sidewalks within the adjacent right-of-way).

(Not required in SPI-9, SPI-16, SPI-17, SPI-18, SPI-20, SPI-21, MRC, MR, or LW districts, or in mixed-use developments.) Ratio NI/A

Notice to Applicant

File #	

The applicant hereby acknowledges notification that in the process of design review in connection with the issuance of a Special Administrative Permit (SAP), the City of Atlanta Office of Zoning & Development (OZD) will only review such documents as are deemed necessary for the approval of a project concept in compliance with the district regulations set forth in the City of Atlanta Zoning Code. Such documents may include, without limitation, the elevations of the structures proposed and site plans specifying the arrangement of such structures and other features of the project, but generally will not include a full set of construction drawings. This level of review is for the purpose of determining compliance with those sections of the Zoning Code applying to the district where the project is located or to be located and to allow the applicant the flexibility to receive approval for a project concept without the requirement that a full set of construction drawings, that would otherwise be necessary to obtain a building permit, be prepared, presented and reviewed.

It is the applicant's duty to ensure that all drawings or plans, that may be required for further permitting of the actual construction of the project, will result in a finished project that complies with the elevations, site plan and other plans on which the SAP was granted. The applicant is further notified that neither the Office of Buildings nor any of the other City of Atlanta agencies that review any other part of the overall project plans for compliance to building codes, zoning codes, the tree preservation, the riparian buffers ordinance, land disturbance regulations, drainage and sewer capacity or any other regulations in effect at the time of plan review have the authority to approve any changes to the exterior appearance of structures or site plans in a SAP.

It is the responsibility of the applicant to ensure that any changes required, requested, or allowed by any other City agency or any other agency reviewing the plans during any part of the building permit process will not alter the exterior appearance of any structure or cause the relocation, rearrangement and/or reorientation of any feature of the site plan. Therefore, it is important for the applicant to be aware that even changes which may be in compliance with other codes, including without limitation, an increase to the height of the structure, whether resulting from changes to the foundation plan or the grading plan of the site, alterations to the interior layout of the structure that affect the location or size of exterior doors or windows, or changes to the method of construction for any floor of a structure or the roof of any structure, may affect the exterior appearance in a manner which could cause the finished structure to be out of compliance with the elevations approved by the OZD.

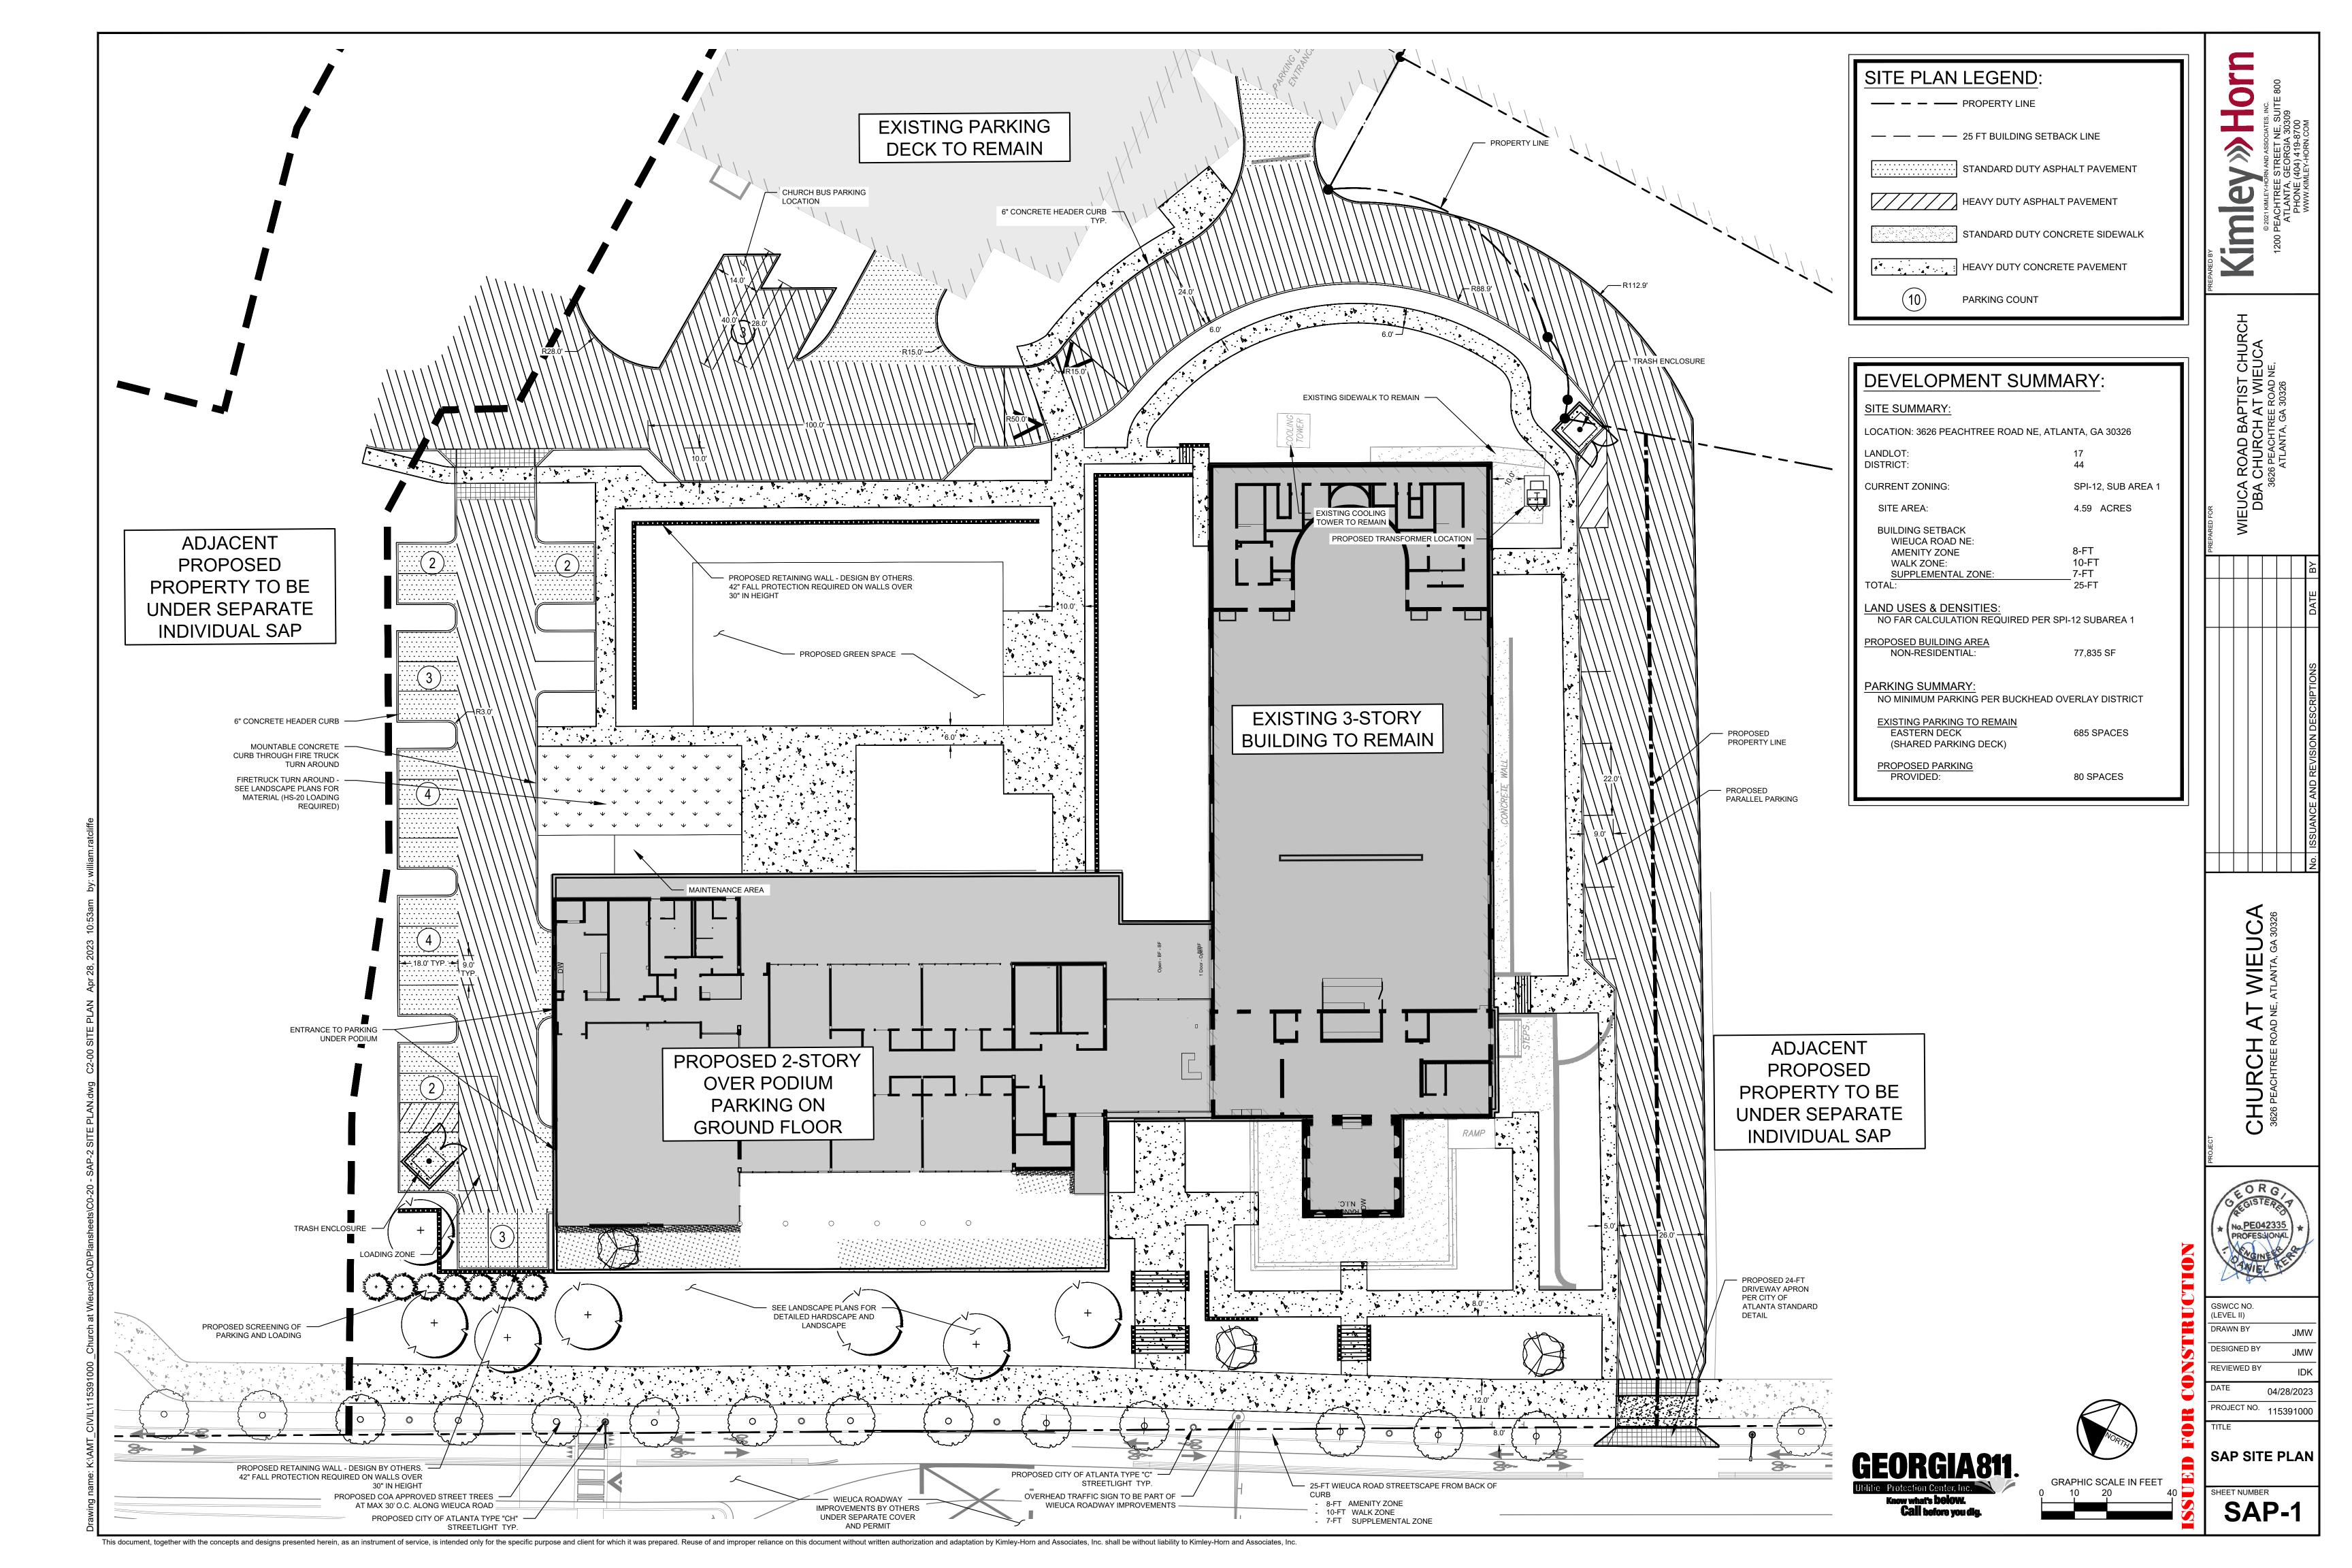

The applicant is further put on notice that the location of any feature specified on the site plan is not to be changed from that location which is specified on the site plan approved by the OZD. This includes, without limitation, any such changes that might affect the setbacks of any structure, the orientation of structures or features on the lot, including, without limitation, accessory buildings, the location and size of driveways, walkways, fences, parking pads, parking spaces, loading zones and service areas. It shall be the responsibility of the applicant to ensure that any changes required by any agency reviewing plans for the project remain consistent with the site plan and elevations approved by the OZD

It shall be the responsibility of the applicant, not the OZD, to monitor any plan changes during the permitting of the project to be sure that such changes do not affect the elevations and site plan approved by the OZD at the time of issuance of the SAP.

It is also the responsibility of the applicant to ensure that any changes made on site during the construction of the project, regardless of whether such changes are approved by a City building inspector, or representative of another City agency as being in compliance with the building codes or other applicable codes, do not result in a change to the exterior appearance of a structure or in a change to the site plan. The City of Atlanta Zoning Ordinance provides a process under which changes to the elevations and site plan in a SAP may be approved, however such approval is not guaranteed and the applicant is hereby notified that such changes are based on the application of the district regulations and not on the fact that a hardship, financial or otherwise may result if such permission is not given. The duty to adequately monitor the construction of the project to ensure compliance to the approved SAP and or any other City permit shall at all times be on the applicant, who assumes all risk of loss, financial or otherwise, from enforcement actions that result from the failure to comply with the SAP or any other City permit.

The applicant acknowledges that relief from any stop work order or other enforcement action, whether resulting from action taken by the OZD staff, the Office of Buildings staff or by the staff of any other City agency, must be appealed within the time and in the า to it is the in oral

manner provided by the City Code alter the approved plans is not an solely within their own discretion to issuance of a stop work order or compliance with the City Code	e. The applicant further acknowledges that the cappeal of a stop work order or other enforcement of choose a process to resolve any dispute arising any other enforcement action and that the restand other applicable laws. The applicant further employee, agent or elected official can waive or many other enforcement action.	decision to apply to the OZD for permission to action. Beltline Overlay

Meeting held the 3rd Wednesday evening monthly Atlanta Beltline Inc. 100 Peachtree Street NW, Suite 2300 Contact Lynnette Reid: LReid@atlbeltline.org (404) 477-3551

Lindbergh SPI-15: Meetings coordinated by City of Atlanta Zoning and Development Staff: (404) 330-6145.

Application Submittal and Review Process

- 1) Pre-application meeting with Office of Zoning and Development staff. To arrange pre-application meeting, contact Christian Olteanu at 404-330-6961 or colteanu@atlantaga.gov.
- 2) Notify the applicable DRC contact (as listed above) to arrange placement on the next scheduled DRC meeting agenda.

DRC Submittal Requirements

- 1) Written summary of proposed scope of work (include applicable project information such as total square footage, # and breakout of residential units, and square footage of each commercial use, building height, parking and loading provided, etc.).
- 2) Identification of all administrative variations requested and written justification for each requested.
- 3) PDF Digital drawings (to-scale) of site plans and building elevations as applicable to the scope of work.
- 4) Photographs of the existing property.
- 5) Contact DRC representative to e-mail project information (prior to meeting) and confirm DRC meeting date and time.
- 6) At the DRC meeting:
 - a. Provide hardcopies of cover letter and drawings (in 11"x17" size) for distribution to each committee member.
 - b. Provide drawings on boards for project presentation to committee members or digital PowerPoint presentation (coordinate with DRC representative on the latter).

Committee Review Responsibilities

- Make recommendations on project concerning zoning requirements and administrative variations requested.
- Make other design recommendations for consideration concerning an application. Note: these other recommendations are not code requirements.

Residential Open Space Requirements (refer to Chapter 28 for clarification)

Definitions and Methods of Calculation

• <u>LUI</u> = Land Use Intensity Ratios Table (per Section 16-08 R-G District Regulations)

TOSR: Total Open Space Requirements for Residential Only Projects

- <u>TOSR</u> are calculated only for residential developments. TOSR includes the total horizontal area of uncovered open space plus ½ of the total horizontal area of covered open space subject to the limitations in Section 16-28.010 (4). Covered total open space is the open space closed to the sky but having two clear unobstructed open or partially open (50% or more) sides.
 - TOSR required = (LUI table) X (GLA).
 - o TOSR provided = (GLA) (area of building footprint) + (combined area of balconies and rooftop terraces).
- <u>UOSR</u> requirements are calculated using the residential FAR (of the <u>corresponding net lot or GLA lot sized used</u> to calculate FAR) for both residential and mixed-use developments. It does not include areas for vehicles. However, newly created on-street parking (outside of existing travel lanes) and new streets may be counted towards the UOSR calculations as specified in the district regulations.
 - UOSR required = (LUI table) X (the corresponding lot size used to calculate FAR).
 - If GLA is used for USOR, than the amount provided shall be = (NLA) (area of building footprint + surface area of parking lots, and driveways) + (balconies, rooftop terraces, and landscaped areas on sidewalks within the adjacent right-of-way).

(Not required in SPI-9, SPI-16, SPI-17, SPI-18, SPI-20, SPI-21, MRC, MR, or LW districts, or in mixed-use developments.) Ratio NI/A

Minimum Required	N/A	N/A	
Provided			
Square Footage breakout of UNCOVERED TOSR amount provided by the following:			

Square Footage breakout of ONCOVERED TOOK amount provided by the following.				
GLA minus building square footage				
Open exterior balconies (per Section 16-28 or district regs)				
Roof area improved as recreation space				

Square Footage breakout of COVERED TOSR amount provided by the following:

Areas closed to the sky (roof) but having two sides with a minimum of 50% open

UOSR: Usable Open Space Requirements for Residential and or Mixed-use Developments

(These are areas not counted towards Public Space Requirements)

	Ratio	Total Square Footage
Minimum Required	10%	7,784
Provided	36%	71,586
Square Footage Breakdown of UOSR amounts provided by the following:		
	Delegaine	N/A

Square Footage Breakdown of UOSR amounts provided by the following:		
Balconies	N/A	
Rooftop Terraces	N/A	
Landscaped Areas and Plazas	47,441	
Portions of Sidewalks on Private Property	21,109	
Portions of Landscaped Areas in Right-of-way adjacent to Property	3,036	

City of Atlanta Office of Zoning & Development SPECIAL ADMINISTRATIVE PERMIT (SAP) APPLICATION <u>Development Controls Specifications (Required)</u>

Non-Residential Public Space Requirements (refer to Chapter 28 for clarification)

PSR: Public Space Requirements for Non-residential & Mixed-use Developments (These are areas not counted towards UOSR)				
Public Space provided = (square footage area of exterior space) + (square footage area of interior space)				
	Percentage (%)	Total Square Footage		
Minimum Required	Does not specify per SPI-12			
Provided				
Square Footage Breakdown of PSR amounts provided by the following:				
EXTERIOR (accessible to general public such as landscaped areas, plazas, terraces, patios, observation decks, fountains, sidewalks, common areas, open recreational spaces, etc.)				
during normal bus	d-level area accessible to the general public siness hours such as malls, galleries, atria, es, plaza, walkways, fountains, landscape ecreation, pedestrian seating, or eating and nities)			

Parking and Loading Requirements (refer to district regulations and Chapter 28 for clarification)

Residential Unit Breakout

On-site Parking Spaces		Residential	Non-residential Uses	
Minimum Required			No minimum per Buck	head Parking Overlay
Provided			Existing: 685 Space shar	red parking/ Proposed: 80
Maximum Allowed			390 (1/200SF)	
Bicycle Parking Spaces		Residential	Non-residential Uses	
Minimum Required			19	
Provided			20	
On-site Loading Spaces	(see applicable zoning dist	trict requirements or Sectio	n 16-028.015)	
	Residential/Hotel Non-residential Uses (break out by use		Uses (break out by use)	
Minimum Required (specify for each use)			1 - 12ft x 35ft provided	for proposed building
Provided (specify for each use)			1 - 12ft x 35ft provided	for proposed building

Notice to Applicant

File #	

The applicant hereby acknowledges notification that in the process of design review in connection with the issuance of a Special Administrative Permit (SAP), the City of Atlanta Office of Zoning & Development (OZD) will only review such documents as are deemed necessary for the approval of a project concept in compliance with the district regulations set forth in the City of Atlanta Zoning Code. Such documents may include, without limitation, the elevations of the structures proposed and site plans specifying the arrangement of such structures and other features of the project, but generally will not include a full set of construction drawings. This level of review is for the purpose of determining compliance with those sections of the Zoning Code applying to the district where the project is located or to be located and to allow the applicant the flexibility to receive approval for a project concept without the requirement that a full set of construction drawings, that would otherwise be necessary to obtain a building permit, be prepared, presented and reviewed.

It is the applicant's duty to ensure that all drawings or plans, that may be required for further permitting of the actual construction of the project, will result in a finished project that complies with the elevations, site plan and other plans on which the SAP was granted. The applicant is further notified that neither the Office of Buildings nor any of the other City of Atlanta agencies that review any other part of the overall project plans for compliance to building codes, zoning codes, the tree preservation, the riparian buffers ordinance, land disturbance regulations, drainage and sewer capacity or any other regulations in effect at the time of plan review have the authority to approve any changes to the exterior appearance of structures or site plans in a SAP.

It is the responsibility of the applicant to ensure that any changes required, requested, or allowed by any other City agency or any other agency reviewing the plans during any part of the building permit process will not alter the exterior appearance of any structure or cause the relocation, rearrangement and/or reorientation of any feature of the site plan. Therefore, it is important for the applicant to be aware that even changes which may be in compliance with other codes, including without limitation, an increase to the height of the structure, whether resulting from changes to the foundation plan or the grading plan of the site, alterations to the interior layout of the structure that affect the location or size of exterior doors or windows, or changes to the method of construction for any floor of a structure or the roof of any structure, may affect the exterior appearance in a manner which could cause the finished structure to be out of compliance with the elevations approved by the OZD.

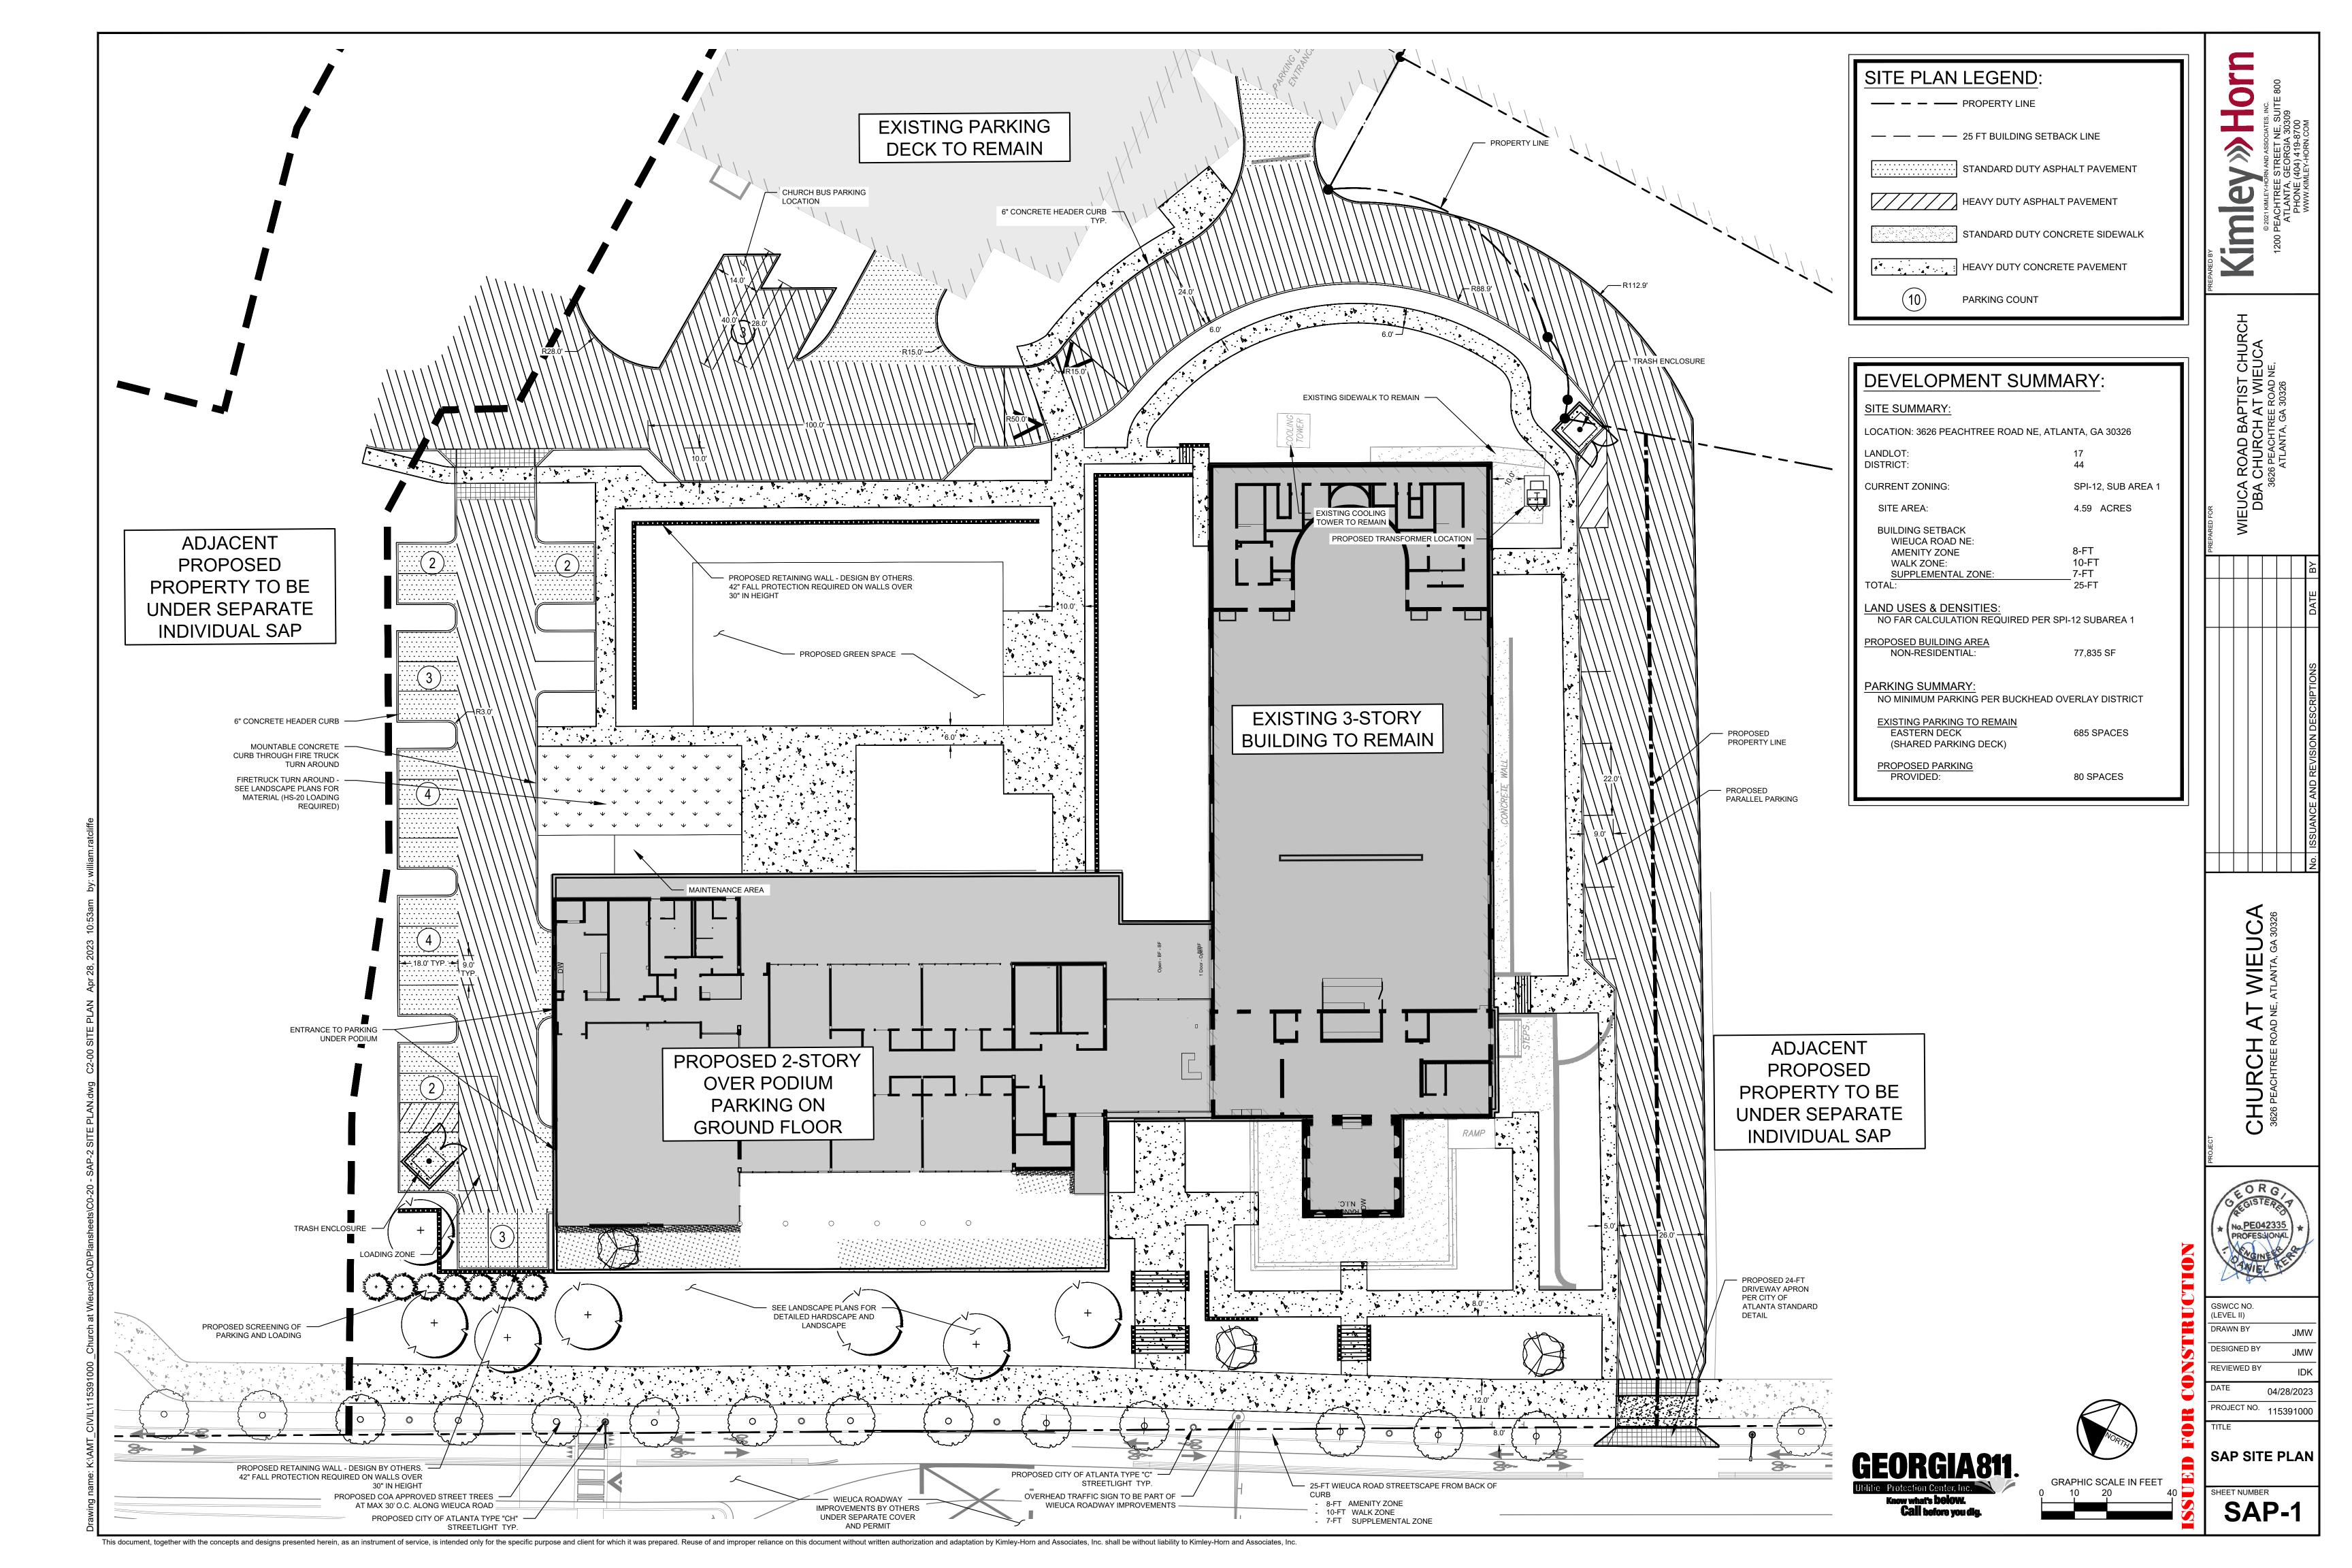

The applicant is further put on notice that the location of any feature specified on the site plan is not to be changed from that location which is specified on the site plan approved by the OZD. This includes, without limitation, any such changes that might affect the setbacks of any structure, the orientation of structures or features on the lot, including, without limitation, accessory buildings, the location and size of driveways, walkways, fences, parking pads, parking spaces, loading zones and service areas. It shall be the responsibility of the applicant to ensure that any changes required by any agency reviewing plans for the project remain consistent with the site plan and elevations approved by the OZD

It shall be the responsibility of the applicant, not the OZD, to monitor any plan changes during the permitting of the project to be sure that such changes do not affect the elevations and site plan approved by the OZD at the time of issuance of the SAP.

It is also the responsibility of the applicant to ensure that any changes made on site during the construction of the project, regardless of whether such changes are approved by a City building inspector, or representative of another City agency as being in compliance with the building codes or other applicable codes, do not result in a change to the exterior appearance of a structure or in a change to the site plan. The City of Atlanta Zoning Ordinance provides a process under which changes to the elevations and site plan in a SAP may be approved, however such approval is not guaranteed and the applicant is hereby notified that such changes are based on the application of the district regulations and not on the fact that a hardship, financial or otherwise may result if such permission is not given. The duty to adequately monitor the construction of the project to ensure compliance to the approved SAP and or any other City permit shall at all times be on the applicant, who assumes all risk of loss, financial or otherwise, from enforcement actions that result from the failure to comply with the SAP or any other City permit.

The applicant acknowledges that relief from any stop work order or other enforcement action, whether resulting from action taken by the OZD staff, the Office of Buildings staff or by the staff of any other City agency, must be appealed within the time and in the า to it is the in oral

manner provided by the City Code alter the approved plans is not an solely within their own discretion to issuance of a stop work order or compliance with the City Code	e. The applicant further acknowledges that the cappeal of a stop work order or other enforcement of choose a process to resolve any dispute arising any other enforcement action and that the restand other applicable laws. The applicant further employee, agent or elected official can waive or many other enforcement action.	decision to apply to the OZD for permission to action. The applicant acknowledges that in a from the interpretation of any ordinance, solution of any such matter shall be made urther acknowledges that no written or or

City of Atlanta Office of Zoning & Development SPECIAL ADMINISTRATIVE PERMIT (SAP) APPLICATION

Submittal Checklist

The following checklist is designed to assist those in preparing required materials for SPI, Beltline Overlay, NC, LW, MRC, and MR districts. <u>Items omitted will delay applicant's review process</u>. The following items are required as part of a complete application for a Special Administrative Permit. <u>NPU Notification and DRC review, as applicable, are required as a part of a completed SAP application</u>. <u>Please note</u>: * FINAL APPROVED SAP PLANS ARE REQUIRED WITH THE PERMIT APPLICATION SUBMITTAL TO THE OFFICE OF BUILDINGS.

PERIVII	APPLICATION SUBMITTAL TO THE OFFICE OF BUILDINGS.				
<u>X</u> 1.	SAP Application Form and Property Landowner Authorization Form: completed with notarized signatures.				
X 1.	Notice to Applicant Form: with signature and date.				
3.	Project Summary: Provide cover letter clearly describing all new construction, alterations, repairs or other changes to the exterior appearance of existing structures or site. <u>Any administrative variations ARE REQUIRED</u> to be accompanied by a written justification for each variation requested.				
<u>X</u> 4.	Property Survey: One (1) copy of survey (for new single-family and duplex construction, show existing footprints of principal structures on adjoining lots fronting the same street).				
<u>X</u> _5.	 Site Plan (drawn to scale, released and sealed for construction) of proposed improvements showing items listed below*. Initial Submission: One (1) copy for initial staff review. Final Submission (after staff review): One (1) copy. a) Date, north arrow, and graphic scale. b) Adjacent streets, with street names, property lines and dimensions, and easements. c) Existing conditions to remain: identify all overhead utility poles, transformers, above ground storm water detention areas and inlets. d) Proposed new installations: Identify the number, type and location of new street lights, transformers, AC units and other similar mechanical/accessory equipment at or above grade. Identify such items in the public right-of-way which final approval by Department of Public Works or GDOT is required. e) Specify location and widths for all Sidewalks (street furniture and clear zones) and Supplemental Zones. f) Ground floor layout plan with building and tenant entrances also shown g) Street-front ground floor façade fenestration – vertical/horizontal window dimensions and % of façade length h) Outdoor dining – seating plan, dimensions, and % of business establishment floor area i) Height of structures (including fences/walls) j) Parking, driveway and curb cut layout and dimensions (auto, truck loading, & bicycle/moped) k) Location of parking deck light fixtures. Also indicate amount of foot-candles, and type of light fixture l) Landscape plan: Planting locations including street trees (with tree species and calipers indicated), parking lot and other on-site landscaped areas (with the dimensions and percentage of lot calculated). m) Provide Developmental Control Specification Form (pages 6-8) information on the site plan. Zoning Classification, Net Lot Area & Gross Land Area, Floor Area Ratio (FAR), square footage of structures & individual uses, etc. 				
<u></u> 6.	Rooftop plan when counted towards open space requirements.				
<u> X </u> 7.	Elevations of building facades: One (1) copy for initial staff review. Final Submission: One (1) copy.				
<u> </u>	Section drawing(s) as needed showing required sidewalks, supplemental zones (with retaining walls), and building façade & finished floor-level dimensioned within 5 feet above the adjacent sidewalk-level.				
<u>X</u> 9.	DRI conditions of approval, rezoning legislation, variance or special exception letters printed on site plan.				
<u> </u>	Transportation Management Plan/Association Membership (where applicable) required based on the zoning district. See specific zoning regulations for confirmation.				
<u> </u>	Beltline Overly District, NC-2, NC-6, NC-10, NC-11, NC-12, and NC-14 properties:				
	 Mail a copy of the <u>submitted SAP application & drawings stamped received by the Office of Zoning and Dayslanment to the NDLL centred person.</u> 				
	 Development to the NPU contact person. Submit a copy of <u>U.S. Postal Service Certificate of Mailing</u> and <u>Notarized Affidavit of NPU Notification</u> (page 5) as soon as possible to complete the application submission and begin the SAP review period. 				
<u>X</u> 12.	Photographs (buildings/site): Show existing conditions for alterations to existing building facades and/or site modifications.				
<u> </u>	Shared Off-site Parking: Requests for approval of off-site parking submit materials on Shared Off-site Parking				

 $\underline{1}$ 14. **Other information** necessary for the SAP as requested by staff.

DEVELOPMENT/DESIGN REVIEW COMMITTEES (DRC)

CHECK FOR APPLICABILITY Beltline Overlay and Special Public Interest (SPI) Districts

F	il	0	#
		~	77

Development / Design Review Committees (DRC) have been established as an advisory group for the purpose of providing to the Director of the Office of Zoning and Development formal recommendations/comments on Special Administrative Permit (SAP) applications within the Beltline Overlay and particular SPI zoning districts. Applicants are required to make a presentation of their project to the applicable DRC committee. DRC review is required as part of a completed SAP

Each DRC shall consist of committee members representing the corresponding district stakeholders including: property owner(s), business owner(s) or resident(s), and applicable neighborhood organization(s), among others.

The DRC convenes monthly (or as needed) to comment on SAP applications within a particular district. Each DRC shall provide recommendations to the Office of Zoning and Development Staff and the applicant within 7 business days, unless the applicant is requested to return to the applicable DRC and/or present to respective neighborhood organization(s), or

DRC Committees (established by City Council Resolution)

Midtown SPI-16 & Piedmont Avenue SPI-17 Meetings held the 2nd Tuesday evening monthly Midtown Alliance, 999 Peachtree Street NE, Suite 730 Contact Karl Smith-Davids: Karl@MidtownATL.com (404) 443-6249

Beltline Overlay

Meeting held the 3rd Wednesday evening monthly Atlanta Beltline Inc. 100 Peachtree Street NW, Suite 2300 Contact Lynnette Reid: LReid@atlbeltline.org (404) 477-3551

Lindbergh SPI-15: Meetings coordinated by City of Atlanta Zoning and Development Staff: (404) 330-6145.

Application Submittal and Review Process

- 1) Pre-application meeting with Office of Zoning and Development staff. To arrange pre-application meeting, contact Christian Olteanu at 404-330-6961 or colteanu@atlantaga.gov.
- 2) Notify the applicable DRC contact (as listed above) to arrange placement on the next scheduled DRC meeting agenda.

DRC Submittal Requirements

- 1) Written summary of proposed scope of work (include applicable project information such as total square footage, # and breakout of residential units, and square footage of each commercial use, building height, parking and loading provided, etc.).
- 2) Identification of all administrative variations requested and written justification for each requested.
- 3) PDF Digital drawings (to-scale) of site plans and building elevations as applicable to the scope of work.
- 4) Photographs of the existing property.
- 5) Contact DRC representative to e-mail project information (prior to meeting) and confirm DRC meeting date and time.
- 6) At the DRC meeting:
 - a. Provide hardcopies of cover letter and drawings (in 11"x17" size) for distribution to each committee member.
 - b. Provide drawings on boards for project presentation to committee members or digital PowerPoint presentation (coordinate with DRC representative on the latter).

Committee Review Responsibilities

- Make recommendations on project concerning zoning requirements and administrative variations requested.
- Make other design recommendations for consideration concerning an application. Note: these other recommendations 2) are not code requirements.

Residential Open Space Requirements (refer to Chapter 28 for clarification)

Definitions and Methods of Calculation

- <u>LUI</u> = Land Use Intensity Ratios Table (per Section 16-08 R-G District Regulations)
- TOSR are calculated only for residential developments. TOSR includes the total horizontal area of uncovered open space plus ½ of the total horizontal area of covered open space subject to the limitations in Section 16-28.010 (4). Covered total open space is the open space closed to the sky but having two clear unobstructed open or partially open (50% or more) sides.
 - o TOSR required = (LUI table) X (GLA).
 - o TOSR provided = (GLA) (area of building footprint) + (combined area of balconies and rooftop terraces).
- UOSR requirements are calculated using the residential FAR (of the corresponding net lot or GLA lot sized used to calculate FAR) for both residential and mixed-use developments. It does not include areas for vehicles. However, newly created on-street parking (outside of existing travel lanes) and new streets may be counted towards the UOSR calculations as specified in the district regulations.
 - o UOSR required = (LUI table) X (the corresponding lot size used to calculate FAR).
 - If GLA is used for USOR, than the amount provided shall be = (NLA) (area of building footprint + surface are

o a	f parking lots, and driveways) + (balconies, r djacent right-of-way).	cooftop terraces, and landscaped areas on sidewalks within the

Notice to Applicant

_	•••
-	77

The applicant hereby acknowledges notification that in the process of design review in connection with the issuance of a **Special Administrative Permit (SAP)**, the City of Atlanta Office of Zoning & Development (OZD) will only review such documents as are deemed necessary for the approval of a project concept in compliance with the district regulations set forth in the City of Atlanta Zoning Code. Such documents may include, without limitation, the elevations of the structures proposed and site plans specifying the arrangement of such structures and other features of the project, but generally will not include a full set of construction drawings. This level of review is for the purpose of determining compliance with those sections of the Zoning Code applying to the district where the project is located or to be located and to allow the applicant the flexibility to receive approval for a project concept without the requirement that a full set of construction drawings, that would otherwise be necessary to obtain a building permit, be prepared, presented and reviewed.

It is the applicant's duty to ensure that all drawings or plans, that may be required for further permitting of the actual construction of the project, will result in a finished project that complies with the elevations, site plan and other plans on which the SAP was granted. The applicant is further notified that neither the Office of Buildings nor any of the other City of Atlanta agencies that review any other part of the overall project plans for compliance to building codes, zoning codes, the tree preservation, the riparian buffers ordinance, land disturbance regulations, drainage and sewer capacity or any other regulations in effect at the time of plan review have the authority to approve any changes to the exterior appearance of structures or site plans in a SAP.

It is the responsibility of the applicant to ensure that any changes required, requested, or allowed by any other City agency or any other agency reviewing the plans during any part of the building permit process will not alter the exterior appearance of any structure or cause the relocation, rearrangement and/or reorientation of any feature of the site plan. Therefore, it is important for the applicant to be aware that even changes which may be in compliance with other codes, including without limitation, an increase to the height of the structure, whether resulting from changes to the foundation plan or the grading plan of the site, alterations to the interior layout of the structure that affect the location or size of exterior doors or windows, or changes to the method of construction for any floor of a structure or the roof of any structure, may affect the exterior appearance in a manner which could cause the finished structure to be out of compliance with the elevations approved by the OZD.

The applicant is further put on notice that the location of any feature specified on the site plan is not to be changed from that location which is specified on the site plan approved by the OZD. This includes, without limitation, any such changes that might affect the setbacks of any structure, the orientation of structures or features on the lot, including, without limitation, accessory buildings, the location and size of driveways, walkways, fences, parking pads, parking spaces, loading zones and service areas. It shall be the responsibility of the applicant to ensure that any changes required by any agency reviewing plans for the project remain consistent with the site plan and elevations approved by the OZD

It shall be the responsibility of the applicant, not the OZD, to monitor any plan changes during the permitting of the project to be sure that such changes do not affect the elevations and site plan approved by the OZD at the time of issuance of the SAP.

It is also the responsibility of the applicant to ensure that any changes made on site during the construction of the project, regardless of whether such changes are approved by a City building inspector, or representative of another City agency as being in compliance with the building codes or other applicable codes, do not result in a change to the exterior appearance of a structure or in a change to the site plan. The City of Atlanta Zoning Ordinance provides a process under which changes to the elevations and site plan in a SAP may be approved, however such approval is not guaranteed and the applicant is hereby notified that such changes are based on the application of the district regulations and not on the fact that a hardship, financial or otherwise may result if such permission is not given. The duty to adequately monitor the construction of the project to ensure compliance to the approved SAP and or any other City permit shall at all times be on the applicant, who assumes all risk of loss, financial or otherwise, from enforcement actions that result from the failure to comply with the SAP or any other City permit.

The applicant acknowledges that relief from any stop work order or other enforcement action, whether resulting from action taken by the OZD staff, the Office of Buildings staff or by the staff of any other City agency, must be appealed within the time and in the manner provided by the City Code. The applicant further acknowledges that the decision to apply to the OZD for permission to alter the approved plans is not an appeal of a stop work order or other enforcement action. The applicant acknowledges that it is solely within their own discretion to choose a process to resolve any dispute arising from the interpretation of any ordinance, the issuance of a stop work order or any other enforcement action and that the resolution of any such matter shall be made in compliance with the City Code and other applicable laws. The applicant further acknowledges that no written or oral representation of any City officer, employee, agent or elected official can waive or modify the City Code.

Wieuca Road Baptist (DBA Church at Wieuca) Redevelopment UDP Project Summary and Variations List

I. <u>Project Summary</u>

This application proposes a unified development plan for the overall redevelopment of a 12.4 acre assemblage of properties located on Wieuca Road, Peachtree Road NE and Peachtree Dunwoody Road. The parcels are currently owned by Wieuca Road Baptist Church. The property has recently been rezoned to SPI-12, SA1, SA2 & SA3. This UDP application is intended to layout the infrastructure for the overall development with each individual development having its own SAP application at a later date.

II. <u>Variations Requested:</u>

- 16-18L.009 (2): Reduction in Clear Walk Zone to allow for increased Amenity Zone along Peachtree Road NE
 - a. The variation is requested to allow for the increase in the amenity zone and a reduction in the clear walk zone along Peachtree Road NE as follows:
 - Amenity Zone increase from the required 5-ft to 7-ft per GDOT clear zone Requirements
 - 2. Sidewalk Zone decrease from the required 15-ft to 13-ft.
 - a. Per the approved zoning plan, there will still be a 15-ft wide sidewalk along Peachtree Road, 2-ft of this sidewalk will be located in the supplemental zone.
- 2. 16-18L.010: Reduction in Supplemental Zone to allow for increased Amenity Zone along Wieuca
 - a. The variation is requested to allow for the increase in the amenity zone and a reduction in the supplemental zone along Wieuca Road as follows:
 - 1. Amenity Zone increase from the required 5-ft to 8-ft
 - 2. Supplemental zone reduce from the required 10-ft to 7-ft
- 3. **16-18L.015 (1):** Block face greater than 400-ft
 - a. Due to the proposed construction of the limited access round-about at Wieuca Road and Phipps Boulevard the block face will exceed the 400-ft block length requirement
