RE: Special Administrative Permit – 3226 Roswell Rd NE

PROJECT SUMMARY

The applicant, Mr. Soul LLC, is seeking a Special Administrative Permit at **3226 Roswell Rd NE, Atlanta, GA 30305**(to be referred to as the “subject property”) for the development of a Restaurant & Bar. The total acreage of the property is 0.07 acres. The “subject property” is presently zoned (SPI-9) Sub Area 2 – Buckhead Parking Overlay.

The Scope of work for this project is to build a new covered aluminum patio is to be built on top of existing features, which consist of landscape area, therefore making the net increase in impervious coverage \pm 495 sf. Very minimal disturbance will be done to install the footings for the new patio

The applicant has given special attention to ensure the layout and design of the site allows for efficient ingress & egress to the subject property, as well as pedestrian traffic on the site. The applicant looks forward to discussions with the neighbors, county officials and other interested parties to ensure a similar blend with the surrounding area.

Thank you for the thoughtful attention to the foregoing request for Special Administrative Permit. We look forward to working with you on this important matter.

Regards,

Darrell Johnson

NPU Notification Cover Page

(ONLY APPLICABLE FOR BELTLINE, NC-2, NC-6, NC-10, NC-11, NC-12 & NC-14 DISTRICT)

File # _____

*****Applicant shall submit this letter as the cover page to the package mailed to NPU chair or designee*****

NPU Chairperson or Designee:

Enclosed is a copy of a Special Administrative Permit (SAP) application for a property located within the Beltline Overlay, NC-2, NC-6, NC-10, NC-11, NC-12 or NC-14 zoning district. As part of the SAP application process applicants are required to submit site plans and building elevations, as applicable to the scope of work, to the Office of Zoning & Development for approval prior to obtaining a building permit. The following scopes of work may trigger SAP approval in the previously mentioned zoning districts:

“All exterior demolition, new construction (including additions to existing buildings), expansions of outdoor dining or any construction which results in increased lot coverage, modification of the building footprint, or modification of building facades that alters the configuration of openings. “

In addition to the SAP submittal as specified above, the applicant is also required to send a full copy of the SAP application to the respective NPU chair or their designee, evidenced with a mailing certificate, so that the NPU has an opportunity to review and provide written comments to the Office of Zoning & Development regarding an application prior to any SAP approval. Please note that for Beltline Overlay Districts where underlying zoning regulations require Variance, Special Exception or Special Use Permit action, the SAP shall not be issued until the necessary approval has been obtained.

The time period for NPU comment is 21 days from the date of the postage certificate. If the NPU does or does not have comments, or feels they are unnecessary, the Office of Zoning & Development should receive such written notification as soon as possible within the 21-day period. Comments received after the designated review period are not required to be considered in the Office’s project review or approval.

The Beltline Overlay, NC-2, NC-6, NC-10, NC-11, NC-12 and NC-14 zoning districts primarily have design requirements that prescribe parameters for site layout and building elevations. Issues of land use or density (building square footage or number of units) are addressed by the underlying zoning district regulations. Therefore, NPU review should primarily focus their comments on the following items:

- Building placement
- Building setbacks adjacent to streets (pertaining to minimum sidewalks and supplemental zones widths), and transitional yards
- Provision of sidewalks and street trees
- Provision of parking, loading and bicycle spaces
- Location of parking and driveways
- Parking lot landscaping
- Parking deck façade elevations
- Building façade elevations related to entrances and windows
- Other zoning regulations that are eligible for administrative variations

For questions, ask for an SAP staff member at 404-330-6145.

Please send your written comments and or questions referencing the SAP case number and address to:

City of Atlanta Office of Zoning & Development
SPECIAL ADMINISTRATIVE PERMIT (SAP) APPLICATION
Notice to Applicant

File # _____

The applicant hereby acknowledges notification that in the process of design review in connection with the issuance of a **Special Administrative Permit (SAP)**, the City of Atlanta Office of Zoning & Development (OZD) will only review such documents as are deemed necessary for the approval of a project concept in compliance with the district regulations set forth in the City of Atlanta Zoning Code. Such documents may include, without limitation, the elevations of the structures proposed and site plans specifying the arrangement of such structures and other features of the project, but generally will not include a full set of construction drawings. This level of review is for the purpose of determining compliance with those sections of the Zoning Code applying to the district where the project is located or to be located and to allow the applicant the flexibility to receive approval for a project concept without the requirement that a full set of construction drawings, that would otherwise be necessary to obtain a building permit, be prepared, presented and reviewed.

It is the applicant's duty to ensure that all drawings or plans, that may be required for further permitting of the actual construction of the project, will result in a finished project that complies with the elevations, site plan and other plans on which the SAP was granted. The applicant is further notified that neither the Office of Buildings nor any of the other City of Atlanta agencies that review any other part of the overall project plans for compliance to building codes, zoning codes, the tree preservation, the riparian buffers ordinance, land disturbance regulations, drainage and sewer capacity or any other regulations in effect at the time of plan review have the authority to approve any changes to the exterior appearance of structures or site plans in a SAP.

It is the responsibility of the applicant to ensure that any changes required, requested, or allowed by any other City agency or any other agency reviewing the plans during any part of the building permit process will not alter the exterior appearance of any structure or cause the relocation, rearrangement and/or reorientation of any feature of the site plan. Therefore, it is important for the applicant to be aware that even changes which may be in compliance with other codes, including without limitation, an increase to the height of the structure, whether resulting from changes to the foundation plan or the grading plan of the site, alterations to the interior layout of the structure that affect the location or size of exterior doors or windows, or changes to the method of construction for any floor of a structure or the roof of any structure, may affect the exterior appearance in a manner which could cause the finished structure to be out of compliance with the elevations approved by the OZD.

The applicant is further put on notice that the location of any feature specified on the site plan is not to be changed from that location which is specified on the site plan approved by the OZD. This includes, without limitation, any such changes that might affect the setbacks of any structure, the orientation of structures or features on the lot, including, without limitation, accessory buildings, the location and size of driveways, walkways, fences, parking pads, parking spaces, loading zones and service areas. It shall be the responsibility of the applicant to ensure that any changes required by any agency reviewing plans for the project remain consistent with the site plan and elevations approved by the OZD

It shall be the responsibility of the applicant, not the OZD, to monitor any plan changes during the permitting of the project to be sure that such changes do not affect the elevations and site plan approved by the OZD at the time of issuance of the SAP.

It is also the responsibility of the applicant to ensure that any changes made on site during the construction of the project, regardless of whether such changes are approved by a City building inspector, or representative of another City agency as being in compliance with the building codes or other applicable codes, do not result in a change to the exterior appearance of a structure or in a change to the site plan. The City of Atlanta Zoning Ordinance provides a process under which changes to the elevations and site plan in a SAP may be approved, however such approval is not guaranteed and the applicant is hereby notified that such changes are based on the application of the district regulations and not on the fact that a hardship, financial or otherwise may result if such permission is not given. The duty to adequately monitor the construction of the project to ensure compliance to the approved SAP and or any other City permit shall at all times be on the applicant, who assumes all risk of loss, financial or otherwise, from enforcement actions that result from the failure to comply with the SAP or any other City permit.

The applicant acknowledges that relief from any stop work order or other enforcement action, whether resulting from action taken by the OZD staff, the Office of Buildings staff or by the staff of any other City agency, must be appealed within the time and in the manner provided by the City Code. The applicant further acknowledges that the decision to apply to the OZD for permission to alter the approved plans is not an appeal of a stop work order or other enforcement action. The applicant acknowledges that it is solely within their own discretion to choose a process to resolve any dispute arising from the interpretation of any ordinance, the issuance of a stop work order or any other enforcement action and that the resolution of any such matter shall be made in compliance with the City Code and other applicable laws. The applicant further acknowledges that no written or oral representation of any City officer, employee, agent or elected official can waive or modify the City Code.

SPECIAL ADMINISTRATIVE PERMIT (SAP) APPLICATION
(*APPLICABLE ONLY FOR SHARED OFF-SITE PARKING ARRANGEMENTS)

File # _____

The Director of the Office of Zoning & Development or their designee may approve a shared off-site parking arrangement (on private property), as permitted by the corresponding zoning district, subject to the applicant providing all of the following documentation. Please check below each item submitted. **Items omitted can and will delay applicant's review process.**

- ___ 1. Written summary describing the shared parking arrangement which shall identify:
 - a) Subject property: the principal property address and the lessee's name and contact information
 - b) Off-site parking: the off-site property address and the lessor's (property owner) name and contact information
- ___ 2. Written notarized consent of the property owners agreeing to the shared parking arrangement.
- ___ 3. Property owner verification: affidavits, deeds or other documents that verify current property ownership information of the property providing the off-site parking.
- ___ 4. Copies of valid notarized parking leases which shall include:
 - a) The term of the lease and expiration date. Note: lapse of a required lease agreement may result in revocation of building permits/business licenses. Renewed leases shall be filed with the Office of Zoning & Development.
 - b) A list of all executed lease agreements for the off-site parking location which are current at the time that the application is filed with the Office of Zoning & Development. For each agreement identify the tenant, the time frame, the number of parking spaces to be used, and the hours of operation during which the spaces are leased. If no agreements exist, submit affidavit from property owner stating to that affect.
- ___ 5. Site plans for all properties to be included in the shared parking arrangement. Said plans shall include the following:
 - a) Drawn to-scale that indicates the location and the layout of the proposed parking spaces in relation to the lessor's property.
 - b) Documentation of all tenants sharing the parking facility, including:
 - i. By type of use (i.e. retail, eating and drinking establishment, office, residential, etc.) and their individual tenant square footages to determine minimum parking requirements for each.
 - ii. Hours of operation of each tenant.
 - c) Illustrative indication of how such shared off-site parking spaces shall be clearly marked and signed reserved during the specified lessor's hours.
